be spelled out in greater detail than they are in legislation itself.

Local & District

Ray Remfert, Jim Trotter, and Bill Muntak, who are employed on the pipe line at Oyen were home for the week end visiting their parents.

Don Killian left last Friday for Oyen, where he intends to work on the pipe line for a couple of weeks, then go on to stay with his aunt at Langdon, where he will attend school.

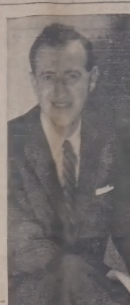

Gus Peterson, a former old time resident of Delia who now resides at Cloverdale, B.C. was a visitor in Delia for a couple of days this week, the guest of his daughter and son-in-law, Mr. and Mrs. Frank Todd.

A sad accident occurred last Saturday on the highway at Michichi Corner, when two men lost their lives in a head-on collision, and five others were injured and taken to hospital. The dead are Mr. Louis Ferguson, of Calgary; and Mrs. Thomas Neuf, of Hanna; and a girl, 11 years old, later in hospital.

Word was received last week that Mrs. Neel Halverson, formerly of the Hand Hills, but for some years had been residing at Horner, North Dakota, U.S.A., passed away on August 7th, 1936, following a short illness. She was 72 years of age.

The weather became very inclement over the week end, when it rained almost continuously for about three days, stopping all harvesting operations, and with lower temperatures. It is now drying up fast, with partly cloudy weather. The temperature is 65 above at this writing.

Alex. Barris

Toronto newspaper columnist Alex Barris, who stars on a weekly television show, will be the summertime emcee for the Rawlins on CBC radio. The Alex Barris Show, featuring Barris' whimsical humor and sense of eccentric humor, will be heard each afternoon, Monday to Friday, on the Trans-Canada network.

There may be a tendency for the recipient country to expect that aid will be a simple matter, and in itself may be a temptation to postpone any local expenditure or the improvement of agricultural methods.

Despite all these problems, ways and means will undoubtedly be found to channel some food to areas where it is most needed. In the meantime Canada's surplus will be considered a great asset and not a liability, particularly if it can become an effective force for promoting international peace and unity.

FARMERS' UNION OF ALBERTA

EMERSON, Sept. 15, 1936
The Farm Union of Ontario, Manitoba, Saskatchewan, Alberta and British Columbia who are members of the Inter-provincial Farm Union Council, are this year promoting National Farm Union Week. This is being done to co-ordinate the publicity and advertising for membership campaigns. All provinces will be conducting an all-out campaign for members during the week of November 8-15.

I have been announced today by D. C. McCorkle, executive assistant of the F.U.A., that the members of the F.U.A. membership drive are not complete. It is expected that the members of the F.U.A., who are representative of over 27,000 farms in Alberta, will easily reach their objective for this year of signing up 60,000 family farms.

Included with the membership drive will be the signing of Requisition Forms authorizing the collection of dues through Municipal Farm Union Week. This scheme has come about by legislation passed by the provincial Government at the last session. This legislation enables the M.D.'s and County Councils to enter into such an agreement if they so wish. This type of collection of dues is purely voluntary for both the council and the farmer.

This year 64 men have been appointed in three of the fourteen F.U.A. districts. These men have been working full time in their respective districts with various projects relative to organizational work. For the remaining 11 districts, arrangements have been made for temporary fieldworkers who will assist the officers of each district in completing arrangements for the census.

RADIO

The following are among the high light of programs to be heard over C.B.C. stations on Thursday, Friday, Saturday, and Sunday, September 18, 19, 20, and 21. All times mentioned are Mountain Standard Time.

THURSDAY, SEPTEMBER 18
4:30 p.m. Saskatchewan Calendar

DISPOSAL OF FOOD TO NEEDY COUNTRIES

A Commentary
In view of the various proposals put forward from time to time for the disposal of surplus food, it is not surprising that the world's surplus food is under constant attack. And nobody will deny the desirability of such a move—many of the opponents of surplus food disposal are not in the least sincere. The recent joint meeting of the American and Canadian Farm Associations was no exception. An informed spokesman, commenting on various phases of surplus disposal under Public Law 480, for instance, observed that some countries are not yet becoming dependent upon the U.S.A. for food that the termination of this particular program would lead to serious food shortages and hunger in certain countries. Clearly, under some circumstances, it may be more difficult to dispose of food than to keep it.

Establishment of Board of Domestic Governors to assume regulatory powers hitherto exercised by CBC itself is also welcome. In its former dual role of competitor with and regulator of private brand-casting CBC was in an inviolable position. Puzzling and obscure to many people, however, is precise nature of relationship between new Board of Broadcast Governors and CBC Board itself, which apparently will remain in existence. Clarification of this relationship may come as both bodies begin to function. Terms of reference, however, need to

ELECTRIC LIGHTING MAKES STREETS SAFER

In Alberta villages at the turn of the century, street lighting—if it existed at all—could hardly be classed as adequate. There is a big difference today—and the difference is electrical. But electric power has done more than bring good light to the streets of Alberta. It has helped local communities, encouraging night and window shopping. It enables local police forces to provide better protection for citizens, homes and businesses. It makes streets safer for both motorists and pedestrians; and plays a large part in the encouragement of community activities. Every day a... every night... we live better, when we live electrically.
